

## Twin castors for the general public with steel bracket

### Vulcanised rubber coating

#### COVERING

Grey anti-trace rubber.

#### WHEEL CENTRE BODY

Polypropylene-based (PP) technopolymer.

#### ROLLING ACTION

Hub with pass-through hole.

#### TURNING PLATE BRACKET

Electrolytically zinc-plated steel sheet bracket.

The presence of a double ball race and the direct contact between the plate and the ball race ring with built-in pin ensure excellent manoeuvrability.

#### FRONT-ACTUATED BRAKE

Total brake that locks rotation of the wheel and the technopolymer bracket.

The optimised dimensions and the retractable pedal ensure minimal space occupied and maximum actuation ease.

#### STANDARD EXECUTIONS

- **SBL-G**: turning plate bracket, without brake.
- **SBF-G**: turning plate bracket, with brake.
- **CBL-G**: turning plate bracket and threaded centre pin, without brake.
- **CBF-G**: turning plate bracket and threaded centre pin, with brake.

#### APPLICATIONS

Wheels for the general public with high carrying capacity, excellent smoothness and elasticity features.

#### ENVIRONMENTAL CONDITIONS

The twin wheels RE.C7-G are suitable for use in humid environments and in the presence of medium-aggressive chemical environments; use in environments with the presence of organic, chlorinated solvents, hydrocarbons and mineral oils is not recommended.
