

GN 2295-elongated

Hinges

for Aluminum Profiles / Panel Elements, Three-Part, Vertically Elongated Outer Wings

SPECIFICATION

Types

- Type A: Exterior hinge leaf
- Type I: Interior hinge leaf

Coding

- Coding C: With countersunk holes

Hinge leaf

Aluminum
Anodized, natural color EL

Bearing bushing / Cover cap

Plastic, Polyamide (PA)
Graphite gray, RAL 7024

Tapered dowel pin ISO 8741

Steel
Zinc plated, blue passivated

INFORMATION

Hinges GN 2295 are made of drawn profiled aluminum and are used on doors and covers, for example.

Given the external hinge wing, type A hinges allow mounting with a very small door gap. The type I is fastened in the door gap. The mounting screws are therefore inaccessible and hence protected from vandalism when the door is closed.

The hinges are delivered loose and must be mounted according to the accompanying instructions. Any hinge combination may be realized (if needed, also by shortening the middle wing) thanks to the modular design and available accessories.

ON REQUEST

- Other lengths and hole spacings
- Other finishes

TECHNICAL INFORMATION

- Mounting information (see page)
- List of hinges types (see page 1362)
- Plastic Characteristics (see page A2)
