GN 449.5

Snap Latches

**Stainless Steel, with Gripping Tray,
with and without Lock**

SPECIFICATION

Types
- Type **OS**: Without lock
- Type **SC**: With lock

Latch / Catch
Stainless steel AISI 304
- Housing collar / Mounting ring / Opening handle
  Polished **PL**
- Pan head screws

Lock
Stainless steel AISI 316
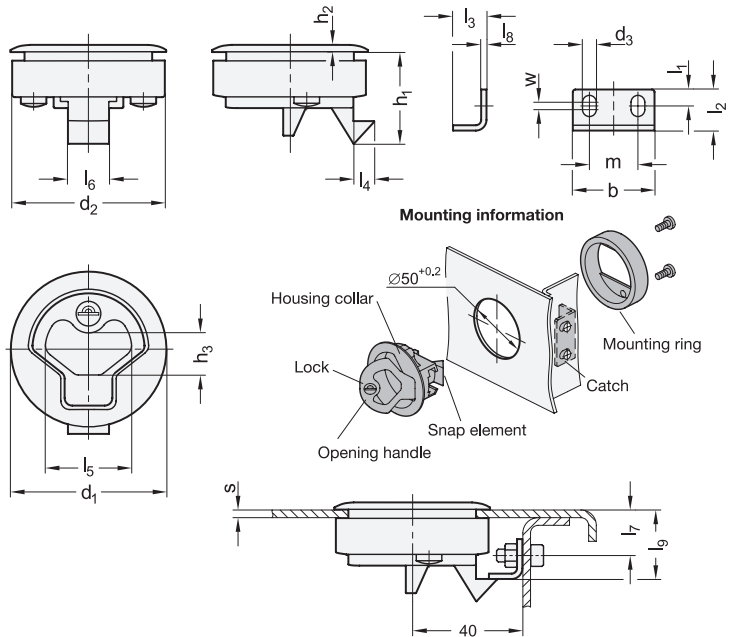

Key
Brass, nickel plated

INFORMATION

Snap latches GN 449.5 combine the function of a gripping tray with that of a snap latch to provide an easy way to keep doors, covers and hoods closed.
Once the mounting hole has been drilled, the housing is inserted into the hole in the door body when actuated and the mounting ring is pushed on from behind. The housing and mounting ring are connected with two supplied pan head screws.
The catch is mounted on the door profile or frame at a right angle to the snap element in accordance with the dimensions.

TECHNICAL INFORMATION

- Stainless Steel Characteristics (see page A26)

Mounting information

- Housing collar
- Lock
- Opening handle
- Snap element
- Mounting ring
- Catch
